Dear Vineland Public Charter School Community:

This Firm is the Solicitor for the Vineland Public Charter School. Recently, correspondence was sent via the US Postal Mail Service to members of the Vineland Public Charter School community that purportedly came from the School's administration. The letter appeared to be addressed from the Vineland Public Charter School and contained a number of documents in reference to the School. To date, there have been approximately 50 confirmed receipts of the letter.

This letter is fraudulent and was not sent from the Vineland Public Charter School, nor from any agent of the School in any official capacity. The matter is extremely serious and is currently under investigation for potential violations of federal statutes governing mail fraud and other federal and state laws. It has been referred to local law enforcement and is pending investigation with the US Postal Inspection Service. Therefore, the School is requesting that any information regarding this issue be brought forward to the School's administration so that it can be supplied to the proper legal authorities.

If you feel you have information regarding this matter, please contact Dr. Shay Richardson, Assistant Business Administrator at srichardson@cccharters.org or 856-691-1611 x223.

Very truly yours,

CAPEHART & SCATCHARD, P.A.
